Celebrando Halloween en el hall del Insti

#### PUMPKIN CONTEST TO COMMEMORATE HALLOWEEN IN OUR HIGH SCHOOL

This year we have celebrated Halloween in our high school as usual. But this year, not only we have commemorated Halloween in our English classes, but also there has been a pumpkin contest in which a lot of students have participated.

The contest has been so successful that a total of 65 pumpkins have participated. Some of these were from individual and others from pairs or groups of students.

The student from 2º ESO, David Crespo, has won the first prize: a MP4. There have been three second prizes and one third prize. All of them have received sweets and chocolates like Anglo-Saxon children when they ask for "Trick or Treat".

Besides, several Didactic Departments have helped to decorate our high school. Art and French Departments have helped with the decoration and a lot of other teachers have been the jury of the contest.

Finally, we hope we'll have another contest next year and our students will participate as they have done this year. Here they are some photographs of Halloween and its pumpkins.
